# Subject index to volume 79, 1997

## A

- Acetaminophen,  
  hypersensitivity to 320  
  tolerability in patients intolerant of nonsteroidal antiinflammatory drugs 47
- Acquired immunodeficiency syndrome in a patient with IgA deficiency 297
- Adherence 177
- Adhesion molecule-1, intercellular 213
- Aeroallergen sampling with Rotorod samplers 256
- Albuterol by metered dose inhaler, compared with dry powder inhaler 322
- Allergist care for asthma, cost compared with generalists 496
- Allergy  
  associated with Tourette's syndrome 347  
  in young children 273
- Anaphylaxis  
  due to *Anisakis simplex* 246  
  due to carmine in popsicle 415  
  due to peanut flour 234  
  due to soy 350  
  idiopathic, associated with respiratory infection 546  
  idiopathic, prevention with ketotifen 138
- Angioedema due to allergy to *Anisakis simplex* 246
- Anisakis simplex*, allergy to 246
- Artemisia crossreactivity 341
- Aspirin, as cause of localized unilateral periorbital edema 420
- Astemizole compared with terfenadine, cetirizine, loratadine for treatment of allergic rhinitis 163
- Asthma,  
  allergen-induced, inhibition by CYS leukotriene 1 antagonist, BAY X 7195 155  
  allergenic sensitization in parents of children with 512  
  atopic 62  
  benchmarking 517  
  cost of care by allergists compared with generalists 496  
  demographic predictors of treatment site 353  
  dust mite allergen avoidance after admission to hospital for 437  
  effect of nedocromil sodium on bronchial hyperreactivity 503  
  exercise-induced, effect of 85  
  green tea-induced 65  
  indoor allergen sensitization associated with risk for admission to hospital for 455  
  lack of effect of cow milk on pulmonary function in patients with 62

- Lactobacillus acidophilus* and yogurt, lack of effect of 229
- mortality in Mauritius 423
- nocturnal, as cause of sleep disturbance 251
- occupational, due to corn dust 75
- occupational due to *Passiflora alata* and *Rhamnus purshiana* 449
- prevalence 517
- prevalence in public school children 80
- selection of patients for clinical research 173
- sensitization in young children with 273
- theophylline, compliance with use of, association with psychologic function 311
- treatment of 517
- Autoimmunity after silicone breast implants 89
- Azathioprine, for treatment of atopic dermatitis [Abstract] November A-24
- Azelastine nasal spray as adjunct to azelastine tablets 327

## B

- Balloon inflation as cause of pneumomediastinum [Abstract] November A-24
- Bronchial hyperreactivity, effect of nedocromil sodium 503
- Bronchodilator response during asthma, relationship to serum eosinophil cationic protein 363
- Buildings, public, dog and cockroach allergens in [Abstract] November A-48

## C

- Candidiasis, esophageal, as complication of inhaled corticosteroid 333
- CAP system for measurement of specific IgE 27
- Carmine in popsicle as cause of anaphylaxis 415
- Cascara sagrada as cause of occupational asthma 449
- Cat sensitization increases risk of admission to hospital for asthma 455
- Cetirizine  
  compared with ebastine [Letter] 465  
  compared with terfenadine, astemizole and loratadine for treatment of allergic rhinitis 163  
  continuous treatment versus on demand 507
- Cockroach allergen in public buildings [Abstract] November A-48
- Compliance 177
- Compliance with use of theophylline associated with psychologic function of asthmatic children 311

- Corn dust, as cause of IgE-mediated occupational asthma 75
- Corticosteroid, inhaled, esophageal candidiasis as complication of 333
- Cost of care for asthma, allergists compared with generalists 496
- Cough, habit 91
- Criteria, spirometric inclusion, for asthma drug trials 226
- Cromolyn, lack of inhibition of conjunctival mast cell histamine release by 541
- CYS leukotriene 1 receptor antagonist, BAY X 7195, inhibition of allergen-induced asthmatic response by 155
- Cystic fibrosis, genetic and immunologic factors 378
- Cytokines, clinical application of 5

## D

- Dermapor glove liner minimizes contact with latex 266
- Dermatitis, atopic,  
  elevated serum levels of soluble HLA class I molecule in children with 113  
  IgE binding of staphylococcal enterotoxins in patients with 403  
  management of, practice parameter for 197  
  treatment with azathioprine [Abstract] November A-24
- Dog allergens in public buildings [Abstract] A-48
- Drug trials, asthma, spirometric inclusion criteria 226
- Dust mite allergen avoidance, effect in children who required admission to hospital for asthma 437
- Dyspnea, sighing 91

## E

- Ebastine compared with cetirizine [Letter] 465
- Education for prevention of allergy and asthma 35
- Emergency treatment of asthma, demographic predictor of 353
- Endotoxin, possible role in latex allergy 277, 303
- Eosinophil  
  activation in allergic fungal sinusitis 221  
  cationic protein, correlation of serum levels with bronchodilator response 363
- Epigallocatechin gallate-induced histamine release in patients 65

Eruption, fixed drug 21  
Erythema multiforme minor 21  
Exercise-induced bronchoconstriction,  
prevention by Proventil HFA 85

## F

Fexofenadine 530  
evaluation in treatment of allergic rhinitis 533  
hydrochloride in treatment of allergic rhinitis 443  
peripheral H<sub>1</sub>-blockade of 529  
Fire ant allergy 125  
Fish proteins, IgE antibodies binding to 131  
Fluticasone propionate compared with mometasone furoate in treatment of perennial rhinitis 237  
Fungi, allergenic, in allergic fungal sinusitis 431

## G

Gloves, latex 487

## H

Hepatitis C transmitted by intravenous immunoglobulin [Letter] 466  
HLA class I molecule, soluble, elevated serum level in atopic dermatitis 113  
Hospital admission for asthma, risk associated with sensitization to cats 455  
House, healthy, construction of 1  
Human immunodeficiency virus  
infection 281  
infection, desensitization to trimethoprim/sulfamethoxazole in patients with 409  
infection in patient with IgA deficiency 297  
Hyperreactivity, bronchial, effect of nedocromil sodium 503  
Hyperresponsiveness, bronchial, improvement in asthmatic children treated for sinusitis 70  
Hypersensitivity to acetaminophen 320  
Hypoparathyroidism with adrenal insufficiency and chronic mucocutaneous candidiasis 105  
HYTEC system for measurement of specific IgE 27

## I

IgA deficiency  
associated with vitiligo, thrombocytopenia, and progressive immunodeficiency 297  
partial, in children 460  
IgE

binding to fish protein 131  
specific, measurement by automated enzyme immunoassay 27  
specific, to Japanese cedar pollen, yearly and seasonal changes in 57  
Immune serum globulin, intravenous, in treatment of chronic sinusitis 119  
Immunization to diphtheria/tetanus, response of children in evaluation for immunodeficiency 145  
Immunodeficiency  
common variable, with polyglandular autoimmune syndrome 105  
evaluations, responses to immunization with diphtheria/tetanus toxoid 145  
Immunoglobulin, intravenous, transmission of hepatitis C [Letter] 466  
Immunotherapy, nasal, with weed extract 259  
Infection  
recurrent in children with mild serologic immune abnormalities 460  
respiratory, associated with idiopathic anaphylaxis 546  
Inhaler, metered dose compared with dry powder 322  
Inner city study of asthma and allergy in children 80  
Insufficiency, adrenal, with hypoparathyroidism and chronic mucocutaneous candidiasis 105  
Interleukin-10 469  
*Ixodes ricinus*, hypersensitivity to bite of 43

## J

Japanese cedar pollen, seasonal and yearly IgE changes 57

## K

Ketotifen for prevention of idiopathic anaphylaxis 138

## L

*Lactobacillus acidophilus*, lack of effect on asthma 229  
Latex  
allergy 487  
allergy to 277, 303  
gloves, provocation with 266  
Loratadine compared with terfenadine, astemizole and cetirizine for treatment of allergic rhinitis 163

## M

Mast cells, conjunctival, comparison of effect of topical anti-allergy drugs on histamine release from 541  
Mastocytosis, fixed drug eruption 21  
Mauritius, asthma mortality during 1982-1991 423  
Milk, cow  
effect on pulmonary function, early and late phases 62  
lack of effect on pulmonary function in asthma 62  
Mite  
dust, allergen avoidance, effect in children who required admission to hospital for asthma 437  
storage, allergenic characterization of 525  
Mometasone furoate  
compared with fluticasone propionate in treatment of perennial rhinitis 237  
nasal spray, in treatment of allergic rhinitis 51  
Mugwort crossreactivity 341

## N

Nasal immunotherapy with weed extract 259  
Nasal provocation in diagnosis of allergy to *Dermatophagoides pteronyssius* 427  
Nasonex, nasal spray, dose range, in treatment of allergic rhinitis 51  
Nebulizer, ultrasonic, compared with jet [Letter] 467  
Nedocromil, inhibition of conjunctival mast cell histamine release by 541  
Nedocromil sodium, effect on bronchial hyperreactivity in nonatopic asthma 503  
Nimesulide tolerability in patients intolerant of nonsteroidal antiinflammatory drugs 47  
Nonadherence 177  
Noncompliance 177  
Nonsteroidal antiinflammatory drugs, patients intolerant of, tolerability of acetaminophen and nimesulide 47

## O

Olopatadine, inhibition of conjunctival mast cell histamine release by 541  
Outcomes of asthma management, costs for allergists compared with generalists 496

## P

Paracetamol, hypersensitivity to 320  
Parameter, practice, for management of atopic dermatitis 197

*Passiflora alata* (passion flower) as cause of occupational asthma and rhinoconjunctivitis 449

#### Peanut

flour, allergic reaction to 234  
oil, reactions to [Abstract] November A-48  
Pemirolast, lack of inhibition of conjunctival mast cell histamine release by 541  
Plagiarism in scientific writing 489  
Pneumomediastinum caused by inflating balloons [Abstract] November A-24

#### Pollen

crossreactivity of *Artemisia* 341  
recovery by different models of Rotorod samplers 256

Pollinosis in young patients 57

Polyglandular autoimmune syndrome, type I 105  
Popsicle-induced anaphylaxis due to carmine 415

Position statement, AAAAI and ACAAI joint statement on rubber latex gloves 487

Proventil HFA, for prevention of exercise-induced bronchoconstriction 85

Psychologic function of asthmatic children associated with adherence to use of theophylline 311

## R

Ragweed pollen, absence in northwestern US [Letter] 467

Recruitment of asthmatic patients for clinical trials 173

Research, clinical, selection of asthmatic patients for 173

*Rhamnus purshiana* as cause of occupational asthma and rhinoconjunctivitis 449

#### Rhinitis,

allergic sensitization in parents of children with 512  
allergic 507  
allergic sensitization in parents of children with 512  
allergic, fexofenadine for treatment of 443  
allergic, nasal provocation correlated with allergy skin testing in allergy to *Dermatophagoides pteronyssinus* 427  
allergic, treatment with azelastine nasal spray and tablets 327  
allergic, treatment with fexofenadine evaluated 533

allergic, treatment with terfenadine, astemizole, cetirizine, and loratadine compared 163

allergic, treatment with mometasone furoate nasal spray 51

occupational due to *Passiflora alata* and *Rhamnus purshiana* 449

perennial, fluticasone propionate compared with mometasone furoate in treatment of 237

Rotorod sampler, comparison of different models 256

## S

Sage crossreactivity 341

Seafood, parasitized by *Anisakis simplex* 246

Sensitivity in young children 273

Sensitization to allergens in parents of children with asthma or rhinitis 512

Sick building syndrome 283

Silicone breast implant

autoimmunity after 89

cellular immune reactions in women with 151  
Sinusitis

allergic fungal, allergenic fungi in 431

allergic fungal, eosinophil activation in 221  
chronic, intravenous immune serum globulin in treatment of 119

in asthmatic children, improvement in bronchial hyperresponsiveness, after treatment of 70

Site of treatment for asthma, demographic predictors of 353

Sleep disturbance due to nocturnal asthma 231

Smoking, maternal, during pregnancy, association with asthma 80

Sneezing, paroxysmal 91

Soy as cause of anaphylaxis when found unexpectedly in foods 350

Staphylococcal enterotoxins, IgE binding in patients with atopic dermatitis 403

Superior vena cava syndrome 397

## T

Tea, green, as cause of asthma 65

Terfenadine compared with astemizole, cetiriz-

ine and loratadine for treatment of allergic rhinitis 163

#### Testing

comparison of specific IgE by CAP and HYTEC 27

skin, results in young asthmatic children 273  
skin, with *Dermatophagoides pteronyssinus* extract correlated with nasal provocation 427

Theophylline, compared with use of, association with psychologic function of asthmatic children 311

Thrombocytopenia, associated with IgA deficiency 297

Tick bite hypersensitivity 43

Tourette's syndrome associated with allergy 347

Triamcinolone acetonide, inhaled, esophageal candidiasis as complication of 333

Trimethoprim/sulfamethoxazole, desensitization to 409

*Tyrophagus putrescentiae*, allergic characterization of 525

## U

Urticaria, due to *Anisakis simplex* 246

## V

Vasculitis, systemic 189

Ventolin and Proventil HFA, comparison using pulmonary function testing 85

Vitiligo, associated with IgA deficiency 297

Vocal cord dysfunction 91

## W

Weed pollen extract, nasal immunotherapy with 259

Women, postpartum, knowledge of allergy and irritant avoidance in 35

Writing, scientific, ethics in 489

## Y

Yogurt, lack of effect on asthma 229
